Pharmacology Made Insanely Easy

Content to be shared during this day-long session:

- How to organize your pharmacology and prioritize your study time
- How to review questions and consistently get to the correct answer
- Review an easy way to remember labs to monitor for specific medications
- Discuss strategies to remember interactions, medications, undesirable effects, and prioritize medications
- Demonstrate how to be SUCCESSFUL on the NCLEX® and your exams at school

Loretta Manning, MSN, RN, GNP

Loretta is the President and co-founder of I CAN Publishing®, Inc. an organization that specializes in making learning fun and easy! Loretta is the author of several books, including Nursing Made Insanely Easy, Pharmacology Made Insanely Easy, NCLEX 101: How to Pass!, the Untold Stories of Nursing, several clinical books to assist students with how to make clinical decisions, and a book entitled, Pathways of Teaching Nursing: Keeping it Real! Loretta has presented faculty workshops and NCLEX Reviews worldwide. In England she worked with students from Africa, the Philippines, and Saudi Arabia. She does programs with students on how to make clinical decisions and clinical thinking fun and easy! Loretta works with nursing faculty and students across the country to assist both groups in learning how to make pharmacology for both teaching and learning insanely EASY! Participants leave her presentations saying, “I have learned more in 1 day about pharmacology than I learned in an entire semester and had fun doing this!” Loretta specializes in making difficult subjects such as pharmacology a memorable experience, so you are successful in remembering all of those drugs! She is a leadership fellow from the Amy V. Cockcroft Leadership Center at the USC-Columbia. She is a nurse practitioner with her clinical background being pediatric trauma. She has taught in ADN, BSN and MSN programs, was Director of a Children’s and Woman’s Center, and serves as a consultant at many schools to facilitate the integration of nursing concepts and pharmacology throughout the curriculum.
